## Technical Data Sheet

### Ultron 5W-40

#### Specifications, Performance Standards & Recommendations

- API: SN/CF
- RN710/700
- MB 229.31, 229.5
- OPEL LL-025
- BMW: LL-01
- Porsche
- VW 502.00/505.00
- ACEA: A3/B3/B4-08

ULTRON 5W- 40 SN/CF is multi fuel capable and can be used for petrol, gas and diesel engines (without particulate filters) and is also suitable for biodiesel and petrol/ethanol blends. The fully synthetic formulation offers maximum protection in very hot and extremely cold climates and severe driving conditions.

#### Description

ULTRON 5W-40 is a fully synthetic engine oil designed for use in automotive engine applications that recommends an API Service designation of SN/CF. The advanced additive package provides enhanced protection against the formation of sludge and deposits which in turn increases engine efficiency and extends engine life.

#### Benefits

- Exceptional low temperature performance
- Superior wear and corrosion protection by helping to neutralise corrosive combustion acids.
- Extended oil- drain intervals, resulting in longer life

#### Typical Physical Characteristics

Ultron Multigrade	
SAE No.	5W-40
Viscosity, cSt @ 40°C	80.5
Viscosity, cSt @ 100°C	13.8
Viscosity Index	170
Flash Point, °C	234
Pour Point, °C	-45

The values of the specifications shown in this table are typical values given as an indication only.

#### Pack Sizes

- 500 ml ,1 Litre, 5 Litre and 20 Litre Plastic Bottles
- 208 Litre Steel Drums
- 1000 Litre IBC

#### Health and Safety Information

For recommendations on safe handling and use of this product, please refer to the Material Safety Data sheet available on [www.tronlubricants.com](http://www.tronlubricants.com)

Misrepresentation Act 1967. Trade description Act 1968. The information in this publication is based on our experience and reports from customers. There are many factors outside our control and knowledge which effect the use and performance of our products for which reason no warranty is given, express or implied. This information sheet was prepared from the best information available at the time of issue. While the values and characteristics are considered representative, some variation, not affecting performance, can be expected. It is the responsibility of the user to ensure that the products are used in the applications for which they are intended.
